

GROW A MUZZY – Movember 2010 – written by Marsh Carroll (www.marshcarroll.com)

(Sung loosely to the tune of The Piano Man)

Tom Selleck had a lip tickler

When acting as Magnum P.I.

Albert Einstein sported some bristles

While looking at stars in the sky

Ned Flanders has upper lip plumage

And that wrestler, oh what's his name ? {off camera – Hulk Hogan!}

Right. Lanny McDonald had a big one

When he played as a Calgary Flame

CHORUS:

Grow a muzzy in Movember

Glve Prostate Canada cash

Changing the face of men's health

It starts with a little mustache

Snidely Whiplash had a handlebar

And a dastardly black hat

Some dictators also had staches

But let's not sing about that

The prostate's the size of a walnut

Embedded in a tangled-up mess

It's sort of hard to locate

Unless you've got a good GPS

CHORUS:

Grow a muzzy in Movember

Glve Prostate Canada cash

Changing the face of men's health

It starts with a little mustache

The prostate secretes a white fluid

Mixes with sperm like a gravy

Comprising 30 % of the semen

The rest comes from the Canadian Navy

CHORUS:

Grow a muzzy in Movember

Glve Prostate Canada cash

Changing the face of men's health

It starts with a little mustache

**The prostate guides the urine
In the right direction
It has other important functions
So go for early detection .
Yes, once you are over forty
And I'm not trying to be crass
You better have a good doctor
Put his finger right up your - bum**

FINAL CHORUS:

***Grow a muzzy in Movember
Glve Prostate Canada cash
Changing the face of men's health
It starts with a little mustache***
